Gyártelep u. 2. 5900 Orosháza,
Hungary

► Jim Doherty

Managing Director

M.: +36 20 224 6959

E.: jim@dohertygroup.com

Jim joined the Doherty Group in 1994. In 1998, after completing several roles in the business, Jim was responsible for the transfer of all production from England to Hungary and the ultimate closure of the UK plant. After running another company in the group for six years Jim then moved with his family to Hungary in January 2007. He took over as Managing Director of Doherty Hungary Kft with the objective to build a new team, systems, customer base, supply base, technology base and return the company to profit.

Jim graduated from Sheffield Hallam University with a BSc in European Business and from the University of Bordeaux with a Diplome in European Business Systems in 1992. After University Jim joined the graduate training programme at ICL (International Computers Ltd) in London where he stayed for two years before joining the Doherty Group based in the Midlands.

Jim has completed several training courses whilst at Doherty's including; Supervisory Management; FMEA, SPC, Six Sigma, 5S, ISOTS16949 and Hungarian language.

► Mihály Varga

Financial Director

M.: +36 20 224 7015

E.: mihaly.varga@doherty.hu

Mihály joined Doherty Hungary Kft. in mid 2007. His role was to set up the in-house finance and accounting activities and to ensure the company maintains profit and finance streams to support continuous growth. He leads a team to continuously improve the utilisation of the ERP system and the accuracy and speed with which financial data is presented to the managers and the Board. He implemented a monthly management accounts pack with KPI's to support this objective. As a member of the Board he also takes part in strategic decision making.

Mihály graduated as an economist from the College for Finance and Accounting Budapest in 1988. As a consultant he has experience of designing and implementing IT systems in different projects, like finance and accounting, stock management and MIS. Before joining Doherty Hungary he worked in different managing positions, including Managing Director or CEO, at different types of mid-sized companies.

► István Patáki

Commercial Manager

M.: +36 20 967 0627

E.: istvan.pataki@doherty.hu

Istvan started at Doherty Hungary in January 2008 in the position of Commercial Manager. He is the principal contact for the customers and main suppliers of Doherty Hungary. He closely manages the current customer's interests from the enquiry stage through to purchase order confirmation and delivery. During this process he leads the APQP team. Additional responsibilities include customer satisfaction in accordance with Quality, Cost and Delivery targets and building new contacts and opportunities for future growth. He has completed training in ISO16949, APQP and 5S.

Istvan graduated from the University of Szeged with a degree in Enterprise Management. Since graduating Istvan has worked as a regional sales manager in the food industry and as a sales representative for agricultural products.

› **István Nagy Apáti**

Production Manager

M.: +36 20 938 5265

E.: istvan.apati@doherty.hu

István joined Doherty Hungary in 2007 as the Production Manager. He is responsible for the production plant and running the factory 24 hours a day, 5 days a week. He manages the workload and priorities of the production planner, production engineers, administrators and section leaders. He is also responsible for the maintenance system. He is part of the APQP and the productivity improvement team.

Istvan trained as a mechanical engineer at Technical College of Nyíregyháza. He then spent two years at Sámuel Tessedik College, Szarvas studying Environmental Management. He then gained 13 years experience working as a maintenance engineer, technical leader and then production manager at a tile manufacturing company. Istvan has experience in ISOTS16949 and ISO14001 and has been trained in the quality tools of 5S, FMEA and APQP.

› **Sándor Benyó**

Production Engineer

M.: +36 70 374 9161

E.: sandor.benyo@doherty.hu

Sándor joined Doherty Hungary as a production engineer in the beginning of 2009. He has experience in production technology, profitable production methods and machine tool designing.

Sándor's main responsibility is leading the engineering department including the supervision of the purchase of the tools and manufacturing devices, creating technical documentation, calculating and applying efficient production processes and continuously improving these processes. He tests the machines and the tooling and maintains contact with the tool suppliers. He is also responsible for the engineering launch of all new products.

Sándor finished his degree as Technical Manager at the College of Szolnok. During his studies he learnt production technology, quality assurance, production planning, tool designing, production management, and machine tools. He has previously worked in a quality department.

› **Ákos Kovács**

Production Engineer

M.: +36 68 473 396

E.: akos.kovacs@doherty.hu

Ákos started work at Doherty Hungary in May 2010 as a production engineer. He participates in making quotes and increasing production efficiency. He prepares the engineering department's drawings and documents. He liaises with tool suppliers, customers and engineers. He also works closely with the quality, production and maintenance departments to continuously improve production methods and efficiency.

Akos graduated from the University of Debrecen as universal and maintenance engineer, teacher engineer and economic engineer. He was quality engineer and project engineer at a large automotive company and worked in one of the world's largest glass companies as a development engineer and production programmer.
